

To the Honorable Commissioners of the FCC,

I am writing in regards to Docket 02-277. I urge you to retain all FCC rules in question.

As an American citizen, I am deeply concerned with the state of our national media. We live in a media saturated environment, but it is one controlled by only a handful of major corporations. I fear this has already had dire effects on our nation as citizens are rarely exposed to alternative news sources and in fact, have been kept in a state of ignorance and complacency due to the corporate controll of our information resources. Please, do not make the situation worse.

Sincerely,

Nicholas S. Mather
